## PREFACE

Under authority of Section 45-13-47 of the *Georgia Laws*, the Department of Archives and History is to compile every two years an *Official and Statistical Register*. The *Register* is to contain brief sketches of elected and certain appointed State officials and members of Congress from Georgia, rosters of State and county officials, lists of State institutions and official boards, State and county population and election statistics, and "miscellaneous statistics bearing upon related matters of current interest or likely to be of value to the future historian." The Secretary of State is authorized to print the *Register* and distribute copies to the General Assembly, State departments, Georgia high schools, and units of the University System. By a resolution of March 28, 1961 (*Georgia Laws* 1961, p. 238) the General Assembly approved "the preparing, editing, printing, and distributing" of the *Georgia Official and Statistical Register* "to be paid from the funds of the Legislative Branch as now provided by law."

Because of budget constraints, all the necessary funds could not be provided for the production and distribution of the 1979-80 issue of the *Georgia Official and Statistical Register*. Knowing the importance of this publication to the people and government of Georgia, the Secretary of State's Office redirected appropriated funds and obtained additional monies from the Governor's emergency fund to produce this volume. We regret that some information usually included had to be shortened or omitted in this instance to help economize on publication costs. In addition, we are sorry for its delay. Improvements in the compilation of essential information, the use of newer publication techniques, and the availability of Legislative funds, should permit future issues of the *Georgia Official and Statistical Register* to be more comprehensive, timely, and economical.

## CHAPTER I

### STATE ELECTED OFFICERS

#### EXECUTIVE DEPARTMENT

##### THE GOVERNOR

The Governor of the State of Georgia is a constitutional officer, recognized as such in all of the State Constitutions from the first of 1777 through the ninth of 1976. As the head of the Executive Branch he is vested with many powers and charged with duties too numerous to be listed here. He is the commander-in-chief of the National Guard and is the chief law enforcement official of the State. By law he is ex-officio a member of many boards, bureaus, commissions and committees. The Governor has the power of veto over enactments of the General Assembly with the exception of Constitutional Amendments. The General Assembly does have the authority to override a Governor's veto. The Governor has 5 days, excluding Sundays, in which to approve bills received by him from the General Assembly while it is in Session. After the General Assembly adjourns, he has 30 days, excluding Sundays, from the date of adjournment in which to approve or veto bills. If the Governor fails to approve or veto a bill within the required time, the bill automatically becomes law without his signature. The Governor makes appointments between sessions of the General Assembly to fill most appointive offices in government, but all original appointments made by him must be confirmed by the Senate. He likewise appoints to fill unexpired terms in most elective offices until the next regular or special election.

The Governor is elected on Tuesday after the first Monday in November, in each fourth year after 1946, at a General Election at which he is elected for a four year term. The Governor can succeed himself for one additional four year term, but is Constitutionally prohibited from ever seeking the office of Governor again once he has served two consecutive four year terms. Inauguration occurs during the first week of the General Assembly Session which immediately follows the General Election, and his term of office commences with inauguration. The minimum qualifications for the office of Governor are age of thirty years and citizenship in the State for six years and citizenship in the United States for fifteen years.

##### GOVERNOR'S STAFF

The Governor's staff is responsible for providing a broad variety of services to the executive branch of state government, the General Assembly, and the general public.

Staff functions are varied and diverse and include policy analysis, scheduling the Governor's appointments, answering his correspondence, writing speeches and press releases, representing the Governor at functions when he is unable to attend, preparing Executive Orders and Executive Minutes and other Executive Documents, processing criminal extraditions, processing resignations and other vacancies and appointments of judicial officials and executive officials, mon-

itoring legislation and monitoring state programs for effectiveness and efficiency.

The Governor's staff also handles special projects and research for the Governor and must also maintain records on state licensing and examining boards, regulatory commissions, and on other executive boards and commissions. In addition to handling the day-to-day crisis concerning budget matters, agency problems, and human needs, the Governor's staff provides information to the news media on the Governor's activities and provides liaison with state agency heads, members of the General Assembly, local governments, Georgia's Congressional and Senatorial offices, Executive Departments of other states, governments of other nations, and the general public.

In the area of budget analysis, OPB has three major responsibilities—fiscal policy development, development of the annual state budget, and management of the budget and fiscal affairs for the Executive Branch.

OPB's role in policy planning involves efforts to ensure the orderly and balanced development of Georgia's human, economic and physical resources. This process includes a comprehensive assessment of the needs of the state and, working with budget analysis, an assessment of how the state can best allocate its resources to meet these needs.

In addition to policy planning, OPB's planners also are responsible for guiding and coordinating the functional planning efforts of state agencies.

Other specialized activities of OPB are described in the following descriptions of the responsibilities of each of the divisions within OPB.

The Office of Planning and Budget is headed by a Director appointed by the Governor.

### COMPTROLLER GENERAL

The Comptroller General was not designated as a public officer in the first three State Constitutions, but the office was created by the Constitution of 1861 (Art. III, Sec. 2, Par. 8). However, by the Act of December 5, 1799 (Marbury & Crawford, p. 184), the General Assembly had provided for a Comptroller General and had defined his duties and powers, merging under him all such as had been theretofore exercised by auditors and treasurers appointed for special purposes. This office has been functioning continuously since 1799, and the office is specifically provided for in the Constitution of 1945 (Art. V, Sec. 2, Par. 1) and in the 1933 Code (Chaps. 40-14 and 40-15).

The term of office of the Comptroller General is four years to run concurrent with the terms of the Governor and other Executive Officers. The minimum qualifications for the office are citizenship for ten years, residence in Georgia for six years and age of twenty-five years.

Among the general duties of his office are the keeping of complete books (balanced every ten days) on all taxes, fees and other funds which the Department of Revenue and all other Departments and Offices pay to and deposit with the General Fund of the State, and the signing of all warrants issued to each Department, Board or Commission, with

complete books thereon. The Act of August 19, 1912 (Acts 1912, p. 119) created the Insurance Department under the Comptroller General, naming him Insurance Commissioner and authorizing him to appoint a Deputy Insurance Commissioner and all necessary personnel (1933 Code, Chap. 56, amended 1960. See Ga. Code Annotated Title 56). The Act of February 25, 1949 (Acts 1949, p. 1057) named the Insurance Commissioner as Georgia Safety Fire Commissioner with authority to appoint a State Fire Marshal who in turn appoints his Deputy and other necessary personnel, all to serve during the pleasure of the Safety Fire Commissioner (1933 Code, Chap. 92A-7). The Act of February 25, 1949 (Acts 1949, p. 1128) known as the Liquefied Petroleum Safety Act named the Insurance Commissioner as a Commissioner to enforce that Act (1933 Code, Chap. 73-3). Another Act of Mar. 4, 1955 (Acts 1955, p. 431) made the Comptroller General the Georgia Industrial Loan Commissioner (1933 Code, Chapter 25-3).

Under various Acts codified in the 1933 Code, the Comptroller General is an ex-officio member of many Boards and Committees.

## LAW DEPARTMENT

Georgia has had an Attorney General since early colonial times. In fact, the first lawyer authorized to practice in Georgia was her first Attorney General, William Clifton, whose service to the colony began in 1754. Presently, although the Attorney General performs a multitude of duties specified in the Constitution and statutes of Georgia, it may be stated generally that he acts as a lawyer with the State of Georgia as his client.

The office of Attorney General is an elective one with a term of four years. He is elected by the voters at the same general election at which the Governor and other executive officers are elected. The Attorney General is head of the Department of Law, and also an ex-officio member of numerous Boards, Commissions, Committees, and Authorities.

The Law Department is the counsel for the executive branch of Government. It is vested with complete and exclusive authority and jurisdiction in all matters of law relating to all the executive departments of the State. Since the Executive Reorganization Act of 1972, the State Library has also been a part of the Law Department.

The Office of the Attorney General is organized into seven divisions, the State Library, and an administrative unit under the general supervision of the Attorney General and a designated Executive Assistant Attorney General. The legal work of the divisions is coordinated by the First Assistant Attorney General. One member of each division is designated by the Attorney General as the Division Director.

Division One provides legal services to the Department of Human Resources; the Department of Education; the Department of Community Affairs; the Office of Secretary of State; the State Election Board; the Department of Administrative Services, less Fiscal Division; and the Public Service Commission.

Division Two provides legal services to the Department of Agriculture; the Department of Natural Resources; the Department of Industry and Trade; the State Forestry Commission; the Comptroller General; the Office of Consumer Affairs; and the Employees Retirement System for personnel matters.

Division Three provides legal services to the Department of Offender Rehabilitation; State Board of Pardons and Paroles; the Department of Public Safety; the Commissioner of Securities; and the Georgia Bureau of Investigation. It represents the State in appeals from convictions for capital felonies and the interest of the State in collateral attacks on criminal convictions where the custodian is an officer of the State.

Division Four principally is concerned with matters relating to the Department of Transportation. It represents the State in condemnation proceedings necessary for highway construction, damage suits against the State, and in all contract litigation and appellate cases arising therefrom.

Division Five provides legal services to the Judicial Council and the Administrative Office of the Courts; the Department of Revenue; the Georgia State Finance and Investment Commission; the Department of Audits; the Department of Banking and Finance; the Office of Planning and

Budget; the State Depository Board; the Fiscal Division of the Department of Administrative Services; and the Department of Defense.

Division Six provides general legal services for the State Properties Commission and for most of the State Authorities. It is responsible for the preparation and handling of most documents pertaining to the real estate transactions of the State other than acquisition of property for the Department of Transportation.

Division Seven provides general legal services to the Department of Labor; the State Personnel Board; the Board of Workers' Compensation; the Department of Veterans Services; and the State Examining Boards. It also represents the Teachers Retirement System and the Employees Retirement System in other than personnel matters.

The State Library is a highly specialized library maintained for the benefit of all the citizens of the State with special emphasis on service to government officials and members of the bench and bar. It is also a required depository for publications of the several State departments and institutions and a Federal depository of selected items.

The State Librarian supervises and maintains the Library's book collection of over one hundred and twenty thousand volumes in the fields of law, government and Georgia literature and history. He is responsible by law for the distribution of the Georgia Laws and Journals of the House and Senate to the various State and County officers. He is also responsible for distribution of official publications of Georgia, including reports of the Supreme Court and Court of Appeals, to other states in exchange for their official publications (Ga. Code Ch. 101-2). The State Librarian is appointed by the Attorney General and must be either a duly certified librarian or an attorney at law (Ga. L. 1975, pp. 741-744).

ARTHUR K. BOLTON. Griffin. *Attorney General*, 1965-date. Born May 14, 1922 in Spalding Co., Ga. Graduated North Ga. College, 1941; U. of Ga., LLB, 1943. Attorney. Democrat. Baptist. Kiwanian. BPOE. VFW. American Legion. Phi Delta Phi. US Army-WW II. Mbr., House of Rep., 1949-65. Judge, Criminal Court of Griffin, 1952-June 14, 1965, resigned.

**DEPARTMENT OF EDUCATION**

**THE BOARD OF EDUCATION**

and

**THE STATE SUPERINTENDENT OF SCHOOLS**

The Board of Education was recognized by the Constitution of 1945 (Art. VIII, Sec. 2) but it had been created by the Act of February 10, 1937 (Ga. L. 1937, p. 864) and the Act of January 25, 1943 (Ga. L. 1943, p. 636). This Board exercises jurisdiction over all public schools, both graded and high, and those for blind and deaf children, and, in its discretion, defines and regulates the curriculum and courses of study therein. It classifies and certifies for employment all teachers in the public school system and administers all funds appropriated by the State for the maintenance and operation of the public schools, including transportation (1933 Code, Ch. 32-4 and 1975 Code Ch. 32-6A). All phases of vocational education and training are within its jurisdiction. For all such purposes, it has authority to make and enforce its rules and regulations and to employ supervisors and other necessary personnel.

The Board of Education consists of ten members who have resided in the State for five years, one from each congressional district, all of whom are appointed by the Governor with the advice and consent of the Senate. Vacancies on the Board are filled temporarily by the Board until the next session of the General Assembly. The terms of office are for seven years each, staggered so that two vacancies occur in one year, four in the second following year and four in the fourth following year. The appointment of certain specified classes of persons is prohibited by law (1933 Code, Sec. 32-404).

The Superintendent of Schools is the Executive and Administrative Officer of the Board of Education (1975 Code, Sec. 32-660a) charged with the duties of enforcing all of the Board's rules and regulations governing the public

schools and vocational schools, and of making recommendations to the Board for the improvement of the efficiency of the school system. He renders annually to the General Assembly a full and comprehensive report covering every phase of the activities of the Board of Education and of his own administrative office. He is administrative officer of the State Department of Education.

The Superintendent of Schools was made a Constitutional Officer of the State by Art. VIII, Sec. 3, Par. 1 of the 1945 Constitution. His term of office is four years. He is elected by the voters at the same general election at which the Governor and other Executive Officers are elected. Under the 1976 Constitution and the 1933 Code, the minimum requirements for the office are citizenship for ten years, residence in Georgia for six years, age of twenty-five years and certain specified professional education and experience (1933 Code, Sec. 32-502).

He is Executive Officer of the Board of Vocational Education, which is the Board of Education operating in a dual role. He is also a member of the State School Building Authority (1933 Code, Sec. 32-1402a).

## DEPARTMENT OF LABOR

The Department of Labor, which was created by the Act of March 25, 1937 (Ga. L. 1937, p. 230), is the successor to the former Department of Industrial Relations and its predecessor, the Department of Commerce and Labor.

The Act of March 25, 1937 also created the office of Commissioner of Labor and placed the Department of Labor under his supervision and jurisdiction. His duties include the enforcement of all laws pertaining to labor (other than workmen's compensation) as enumerated in Sec. 54-122 of the 1933 Code. One important duty is the enforcement of the provisions of the Unemployment Compensation Act of March 29, 1937 (Ga. L. 1937, p. 806). To accomplish this, that Act authorized the Commissioner of Labor to set up, in the Department of Labor, a Bureau of Unemployment Compensation, divided into an Employment Service Division and an Unemployment Compensation Division. The Act of March 8, 1945 (Ga. L. 1945, p. 331) changed the name of the Bureau to Employment Security Agency, but left the subordinate Divisions unchanged.

Yet, on the other hand, the same Act of March 25, 1937 placed within and under the Department of Labor an Industrial Board which succeeded to all of the powers and duties of the former Department of Industrial Relations, and which was specially charged with the duty of administering the Workmen's Compensation Act of August 17, 1920. The Act of February 8, 1943 (Ga. L. 1943, p. 167) abolished that Board but created the Board of Workmen's Compensation to enforce the Workmen's Compensation Act, as amended. Both Acts of 1937 and 1943 provided that the said named Boards, although within the Department of Labor, be outside of the jurisdiction of the Commissioner of Labor; and the Act of January 26, 1950 (Ga. L. 1950, p. 9) made the Commissioner's connection with the Board advisory only.

Under the Executive Reorganization Act of 1972 the Department of Labor continues to carry out Federal labor programs and enforce Georgia's Labor Laws. It was affected by only one change. The State Board of Workmen's Compensation, which operates independently but is attached to the Department of Labor, was affected by creation of a position of Director of Administration who is responsible for handling administrative functions of the agency. The Director will be both appointed and removed by the Board subject to approval of the Governor.

### THE COMMISSIONER OF LABOR

The term of office of the Commissioner of Labor is for four years. He is elected by the voters at the same general

election in which the Governor and other Executive Officers are elected. The minimum qualifications for the office are citizenship for ten years, residence in Georgia for six years and age of twenty-five years (Art. V, Sec. 2, Par. 4 of 1945 Constitution).

Under Secs. 54-119 and 54-628 of the 1933 Code, the Commissioner of Labor has authority to appoint a secretary, a director of the Employment Security Agency, the heads of all divisions and bureaus and all other necessary personnel in the Department, except those under the Board of Workmen's Compensation. He is the custodian and administrator of the "unemployment compensation fund", which is a special fund, separate and apart from all public monies or funds of the State.

## PUBLIC SERVICE COMMISSION

After operating for sixty-six years under various Acts of the General Assembly, the Public Service Commission was re-created as a constitutional commission and its members were made constitutional officers by the Constitution of 1945 (Art. IV, Sec. 4, Par. 3). Among other powers, the Commissioner has powers of supervision and control, insofar as the public is in any way affected, over the intrastate operations of common and contract carriers of freight and passengers, public utilities (electric, gas, telephone and telegraph companies and radio common carriers). It fixes all rates and charges to be made by all of such corporations, evaluates the property of the same, determines what physical improvements can be made or curtailments allowed and approves all issues of bonds and stocks (Chap. 99-3 of 1933 Code).

The Public Service Commission consists of five members who are elected in the same general election in which other executive officers are elected. The terms of office are for six years each, staggered so that one vacancy occurs in one year, two in the second following year and two in the fourth following year. The minimum requirements for the office are that the member be at least thirty years of age, and without any interest of any kind in any company or business supervised by the Commission. The Commissioners elect one of their number as Chairman, to serve as such for two years. Vacancies on the Commission are filled by the Governor by appointments extending until the next general election. The Commission has authority to appoint the personnel necessary to conduct its manifold examination and investigations, and to enforce its rules and regulations. The Chairman of the Commission is, ex-officio, a member of the State Properties Commission, the Jekyll Island State Park Authority and the Stone Mountain Memorial Association.

## CHAPTER II

### STATE AGENCIES

#### DEPARTMENT OF ADMINISTRATIVE SERVICES

The Department of Administrative services was created under the Executive Reorganization Act of 1972. The purpose of the Department is to provide administrative services to all State Departments, which include fiscal affairs, purchasing, printing, electronic data processing, communications, motor pools and other general services. A Commissioner, heading the Department, is appointed by and serves at the pleasure of the Governor, with confirmation by the Senate.

All functions previously performed by the State Purchasing Department and most functions of the State Treasurer were transferred into this Department. The Office of State Treasurer was abolished by Constitutional Amendment No. 5 (Act No. 250, SB 313) adopted in 1972. Also transferred to the Department were the functions of the State Communications Committee, the Advisory Council on Georgia Government Documents and self-insurance workmen's compensation from the State Highway Department. In addition, the Department assumed the functions of the Secretary of State relating to the inventory of real property.

The State Properties Commission and the State Depository Board were assigned to the Department for administrative purposes. Assigned for administrative purposes on an elective basis were: Georgia Education Authority (Schools); Georgia Building Authority; Georgia Building Authority (Hospitals); Georgia Building Authority (Markets) and Georgia Building Authority (Penal).

Sess., p. 7) and that Act and amending Acts are codified as Chapter 40-18 of the 1933 Code. The Auditor is elected by the vote of the House of Representatives and confirmed by the vote of the State Senate, and the issuance of his commission is a required ministerial duty of the Governor. He not only examines the cash accounts of those receiving money from the State, but also protects all physical properties purchased with State money. vent, operating in an unsafe and unsound manner, or violating the provisions of its charter or the laws of Georgia. Every application for charter or other license to do business by such financial institutions is investigated carefully by the Department before the institution is permitted to engage in business. No change of the legal status or class of such institutions may be made without the prior consent of the Department.

The Commissioner is appointed by the Governor by and with the advice of the Senate for a four-year term of office. The minimum qualifications for the office include at least five years' experience in an executive position in bank management or bank supervision, and that the Commissioner be between 30 and 70 years of age. ## DEPARTMENT OF DEFENSE

The Department of Defense was created by the Act of February 2, 1955 (Ga. L. 1955, p. 10). It consists of a Military Division and a Civil Defense Division. The Adjutant General is the executive head of the Military Division and is the Director of Civil Defense. The tenure of office of the Adjutant General is at the pleasure of the Governor.

Since the Constitution of 1777 (Art. XXXIII) the Governor has been Commander-in-Chief over all the militia and other military and naval forces of the State; the first enactment creating and regulating the militia was the Act of November 15, 1778. The only change throughout the years has been the evolution of the organized militia to the present National Guard. The title of The Adjutant General of

the militia was created by the Act of December 24, 1792 and it has continued throughout all changes in the military and militia laws to the present. The latest law relating to the military establishments is the Act of February 2, 1955 (Ga. L. 1955, p. 10) which places under the Military Division of the Department of Defense the National Guard, the State Guard, the Naval Militia and the unorganized militia, of which only the National Guard is presently active. The executive head of the Department and the Military Division, subordinate only to the Commander-in-Chief, is The Adjutant General, who holds during his term of office the grade of Major General in the National Guard (Sec. 86-204 of the 1933 Ga. Code Ann).

The Adjutant General is Chief of Staff to the Governor and is subordinate only to the Governor in matters pertaining to the Department of Defense and the Military and Naval affairs of the State. Upon appointment the Adjutant General must be between the age of 30 and 65 years, must have attained at least field grade or equivalent in the National Guard of the State or in the Armed Forces of the United States or a Reserve component thereof and must have served not less than five years in one or more services.

The Governor shall appoint an Assistant Adjutant General for Army and an Assistant Adjutant General for Air, to assist The Adjutant General in the discharge and performance of his duties. Each shall, upon appointment, be a federally recognized officer with the rank of Lieutenant Colonel or higher, with not less than five years of continuous service in the Army or Air National Guard of Georgia. An officer who has retired or resigned from the National Guard shall be eligible for appointment as Assistant Adjutant General for Army or Air, as appropriate, provided that said officer shall have served not less than five years in a federally recognized status in the active Army or Air National Guard, as appropriate, and attained the rank of Lieutenant Colonel or higher, and provided further the appointment of said officer shall be within five years of the date of his retirement or resignation and prior to his attaining age 60. Each of the said Assistant Adjutants General shall have the rank of Brigadier General. Assistant Adjutants General shall hold no other State office and they shall serve at the pleasure of the Governor.

The Civil Defense Division was created by the Civil Defense Act of 1951. The mission of Civil Defense as defined in the Civil Defense Act of 1951, as amended, means the preparation for the carrying out of all emergency functions, other than functions for which military forces are primarily responsible to prevent, minimize, and repair injury and damage resulting from emergencies, energy emergencies, or disasters, or the imminent threat thereof, of man-made or natural origin, caused by enemy attack, sabotage, civil disturbance, fire, flood, earthquake, wind, storm, wave action, oil spill, or other water contamination requiring emergency action to avert danger or damage, epidemic, air contamination, blight, drought, infestation, explosion, riot, or other hostile action, or other causes. These functions include, without limitation, fire fighting services, police services, medical and health services, rescue, engineering, warning services, communications, defense from radiological, chemical and other special weapons, evacuation of persons from stricken areas, emergency welfare services, emergency transportation, plant protection, temporary restoration of public utility services, and other functions related to civil

ian protection, together with all other activities necessary or incidental to the preparation for and carrying out of the foregoing functions. The Governor shall appoint a Deputy Director of Civil Defense to assist the Director in the discharge and performance of his duties. He shall hold office during the pleasure of the Governor and shall hold no other State office.

An internal reorganization of the Department of Defense establishing a separate division designated the Administrative Services Division, was made effective 1 October 1974 by The Adjutant General/Civil Defense Director. The Administrative Services Division was established to assure the proper placement of responsibility and accountability for the administrative staff functions of the Department, and to consolidate vital staff services for more effective and efficient administration. A classified position designated the Director of Administrative Services (DoD) was established concurrent with the organization of this separate division.

The Administrative Services Division is charged by The Adjutant General/Civil Defense Director to provide support services in the areas of accounting, budgeting, auditing, inventory management, finance, personnel, management analysis, Federal funding programs and procedures, and planning, operation, and control of the broad, complex activities of the Department.

The Employees' Retirement System was created by the Act of February 3, 1949 (Ga. L. 1949, p. 138) which Act has been amended at each subsequent session of the General Assembly. As stated in the Act, the Employees' Retirement System was "established and placed under a board of

Trustees, for the purpose of providing retirement allowances and other benefits for employees of the State of Georgia and political subdivisions thereof" (Chap. 40-25, 1933 Code.).

The System is named as the State Agency to administer the Social Security Program extending to employees of the State and its political subdivisions the basic protection accorded by the Old Age and Survivors Insurance System embodied in the Federal Social Security Act (Ga. L. 1953, Nov.-Dec. Sess., p. 294).

The System also administers the program of Group Term Life Insurance to its members through a contract with State Employees Assurance Department (Ga. Laws 1953, Jan.-Feb. Sess., p. 323).

Ga. L. 1967, p. 259; Ga. L. 1971, p. 107-11, designate the Board of Trustees of the Employees' Retirement System as the Board of Trustees of the Legislative Retirement System. The Board also serves as the Board of Trustees for the Trial Judges and Solicitors Retirement Fund, as well as Board of Trustees of the Public School Employees' Retirement System (Ga. The Forestry Commission was created by the Act of February 25, 1949 (Ga. L. 1949, p. 1079) which specified that the Commission, by and with the advice of the Governor, should appoint a Director as its executive secretary and administrative officer. The powers and duties of the Forestry Commission are largely the same as those set up for the former Division of Forestry by the Act of March 5, 1937 (Ga. L. 1937, p. 264). The Commission is required to promote and aid forest farming and nursery work, planting, management and protection of forests, and marketing of farm products. It is charged with the duty of administering and enforcing the "Forest Fire Protection" Act of February 23, 1949 (Chap. 43-2 of the 1933 Code). In the furtherance of its work it is authorized to receive and expend all Federal and State appropriations and allotments made for those purposes.

The Commission is composed of five non-salaried members, three being owners of forest land and two being connected with the lumber industry, all appointed by the Governor and confirmed by the Senate.

The creating Act provided that the Director have all of the powers of the Commission when the latter is not in session, and administers its policies as well as to make the rules and regulations to enforce the same. He has authority to appoint assistants, foresters and other necessary personnel, subject to the approval of the Commission.

#### DEPARTMENT OF HUMAN RESOURCES

The Department of Human Resources serves Georgia's five million residents through health, rehabilitation and social welfare programs. The Department was created by the Reorganization Act of 1972.

Activities are carried out by five divisions—physical health, mental health and mental retardation, vocational rehabilitation, youth services, family and children services—twenty-three special councils and the offices of district pro-

grams, regulatory services, Title XX, planning and budget, general administration, and public affairs.

There are 28,000 employees in 2,000 locations offering services to the general public, including the mentally ill and mentally retarded, the drug abuser and alcoholic, the chronically ill, neglected and abused children and adults, dependent children, crippled children, the aged, the poor, the youthful offender, the handicapped, the blind and all other Georgians who have no access or limited access to needed health and social welfare services.

DHR also inspects for safety and sanitation in all public facilities and institutions. It regulates emergency medical services, radioactive material users and other services that have direct relationships to the health and well being of the people of Georgia.

Special emphasis is placed on reaching people in the cities, towns and rural areas where they live through community based programs. DHR's ten District Councils, whose members serve a specific geographic area of the state, include Department professionals representing the five divisions. Their concern is developing new and better ways to provide all DHR services to the people of their areas.

The Board of Human Resources establishes policy for the Department, which is headed administratively by a Commissioner, appointed by the Board, with approval of the Governor.

### MERIT SYSTEM OF PERSONNEL ADMINISTRATION

#### PERSONNEL BOARD

#### STATE MERIT SYSTEM OF

#### PERSONNEL ADMINISTRATION

The Act of February 4, 1943 (Ga. L. 1943, p. 171) established the State Merit System of Personnel Administration under a three member Merit System Council appointed by the Governor for five year terms. The Merit System Council was responsible for the administration of the Merit System law covering employees in the State and County Departments of Welfare, the State and local Departments of Health and The State Employment Security Agency of the State Department of Labor. The Merit System Council adopted a classification and pay plan and established rules and regulations covering all phases of personnel administration, including the appointment of a Director and other necessary personnel.

The 1945 Constitution (Art. XIV, Sec. 1, Par. 1) established a State Personnel Board to administer the Merit System of Personnel Administration under which State personnel shall be selected on a basis of merit, fitness and efficiency according to law. The Personnel Board is composed of three members appointed by the Governor with the advice of the Senate for seven-year terms.

Although it might appear that the Council and the Board are both functioning, the Attorney General furnished the Governor with an opinion on October 24, 1945 to the effect that (1) the Merit System Council had been supplanted by the State Personnel Board; (2) the latter had the powers and duties originally vested in the former; (3) the latter was authorized and empowered to administer the Merit System; (4) the official transfer of powers and duties could be accomplished by executive order. Upon such an executive order being issued, the State Personnel Board, in November,

1945, adopted all rules and regulations and ratified all appointments and other official Acts of the former Merit System Council.

Act 12 (Ga. Laws 1971, pp. 45-55) completely revised and consolidated the laws relating to the State Personnel Board and the State Merit System. The Reorganization Act (Ga. Laws 1972, p. 1015) reduced the number of departments to 25. Act 81 (Ga. Laws 1975, pp. 79-94) completely revised and consolidated the laws relating to the State Personnel Board and State Merit System. The Board was increased from 3 to 5 members by the Constitution of 1976 (Art. IV, Sec. VI, Par. I). The system has grown from a coverage in 1943 of 1,609 employees in three agencies to a coverage of approximately 49,000 employees in 31 agencies.

The Board, through the Commissioner of Personnel Administration and adoption of Merit System Rules and Regulations, governs all phases of personnel administration including such things as recruitment, appointments, promotions, transfers, demotions, separations, job classification, salary and wage administration, leave of absence, training, prohibition of political activity, employee appeals, affirmative action, job counseling, coordinates programs available under the Intergovernmental Personnel Act of 1970 and establishes a career development and manpower planning program. The Board, through the Commissioner of Personnel Administration, also administers an employees health insurance program covering essentially all state officials and employees, members of the General Assembly, employees of the County Boards of Health and County Departments of Family and Children Services, and public school teachers.

The Act consolidated 33 separate agencies into one department with four major divisions. The divisions exercise stewardship over the State's natural resources, with their major functions, briefly stated, being to protect and guide the development of the State's natural, historic and recreational resources.

The Board of Natural Resources is charged with all the policy-making functions which were previously granted by law to those agencies whose functions were transferred to the Department of Natural Resources.

The Commissioner of the Department of Natural Resources is appointed and removed by the Board of Natural Resources, subject to the approval of the Governor. The Commissioner administers the many and varied activities of the Department and carries out Departmental policies established by the Board of Natural Resources.

Included is the development, through coordination, of the department's budget package. The Office of Public Information, including the motion picture film unit which distributes information about the department's programs, plans and activities is also the responsibility of the Deputy Commissioner.

The Board was established in 1943 with its authority founded in the Georgia Constitution. Its existence ensures that the executive branch of government, in addition to the legislative and judicial, has a discretionary role in criminal justice. Thus in Georgia's justice system the Board provides a vital part of the checks and balances deemed so important by the framers of the State Constitution and reflecting the genius of the Constitution of the United States.

The Board has Constitutional authority to grant paroles, pardons, and reprieves, to commute and remit sentences, and to remove disabilities imposed by law. It has authority and staff to investigate cases and to supervise persons granted conditional clemency.

## GEORGIA PORTS AUTHORITY

The Georgia Ports Authority was created as a public corporation, with perpetual existence, by the act of March 9, 1945 (Ga. L. 1945, p. 464) as amended by the Act of Feb. 1, 1955 (Ga. L. 1955, p. 120; Chap. 98-2 of the 1933 Code.) It is an instrumentality of the State, but without power to bind the State for any debt or obligation which it may incur. The primary purposes for which the Georgia Ports Authority was created are the development and expansion of shipping and commerce through the harbors and seaports of the State. Thus, it has power to acquire, build and operate wharves, docks, warehouses, ships, elevators and all other types of plants needed to round out its program; and it may sell or rent any of such projects when it is advantageous to do so. To finance any or all of its projects, it can raise its capital subject to the approval of the Georgia State Financing & Investment Commission, and, in general, function just as does any private corporation.

The Georgia Ports Authority operates deepwater facilities at the Ports of Savannah and Brunswick and inland barge terminals at Augusta, Bainbridge and Columbus, with solicitation offices in Atlanta; New York; Chicago; Bonn, West Germany; Tokyo, Japan and Athens, Greece.

The Authority consists of seven non-salary members, all appointed by the Governor for four-year terms, which are staggered. The members perform the functions of officers of a private corporation, and any 5 can constitute a quorum for doing business. They elect their own chairman and they employ and regulate the salaries and pay of all employees.

#### DEPARTMENT OF PUBLIC SAFETY

The Department of Public Safety was created by the Act of March 19, 1937 (Ga. L. 1937, p. 322) but the Act has been amended several times since its passage (Chaps. 92-1 through 92-6 of the 1933 Code). The Department includes the following Divisions: Fiscal, Logistics, Driver Support, Personnel and Training, and Georgia State Patrol, the members of which are uniformed and designated by grades and ranks similar to the military.

The Department of Public Safety has primary responsibility for the patrol of all public roads and highways in Georgia to enforce the traffic laws of the state and to prevent, detect, and investigate criminal acts performed on these highways or on state-owned property, including the arrest of those charged with committing such criminal acts. Additionally, the Department is empowered to enforce statutory laws of the state as to length, size, and weight of motor vehicles and trailers on public highways.

The Department is responsible for administering the Motor Vehicle Inspection Law which is designated to assist in keeping in safe mechanical condition the vehicles traveling the streets and highways of Georgia. The Motor Vehicle Inspection Section has responsibility for establishing and supervising the various inspection stations across the state, as well as providing training to the individuals who operate these stations.

The Department is also responsible for administering the Motor Vehicle Safety Responsibility Law and the No-Fault Insurance Law, which requires that the operator of every motor vehicle involved in an accident within Georgia in which any person is killed or injured or in which property damage exceeds \$250 must report to the Department, which will then determine adequate security and financial responsibility unless evidence of automobile liability insurance is present.

The Department is responsible for formulating rules and regulations under which drivers' licenses shall be granted, suspended, revoked or canceled, under classes and guidelines set forth by statute. The Department additionally administers these rules and regulations, and is the issuing agency for drivers' licenses to operate vehicles on the public highways of Georgia.

All persons, firms and companies engaged in the sale of pistols, revolvers, or short barreled firearms must be licensed by the Department.

A 24-hour communication network is maintained by the Department providing communication to and from all law enforcement agencies within the state as well as a nationwide communication system to and from law enforcement agencies of each state.

The Board of Public Safety shall establish the general policy to be followed by the Department of Public Safety. The Governor, the Attorney General, and the Commissioner of Offender Rehabilitation serve as ex-officio members. Other members include representatives of the Georgia Sheriffs' Association, the Georgia Association of Chiefs of Police and the District Attorneys' Association of Georgia, plus three members from the state at large.

## DEPARTMENT OF REVENUE

and

## REVENUE COMMISSIONER

The Department of Revenue and the office of Revenue Commissioner, as its head, were created by the Act of Jan. 3, 1938 (Ga. L. 1937-38 Ex. Sess., p. 77, Chap. 92-84 of 1933 Code) but throughout the Act all provisions refer to the Commissioner rather than to the Department. The Department is the tax-collecting agency for the State and among the principal taxes collected are those on sales, motor fuel, income, alcoholic beverages, cigars, and cigarettes, property, motor vehicle licenses and estates. It is the Commissioner's duty to administer all tax laws and he is empowered to make all rules and regulations necessary to the enforcement of those laws, including inspections and investigations when he deems them to be in the interest of the State. He also has authority to employ all personnel necessary for the functioning of the Department. He also is empowered and it is made his duty to enforce all laws and regulations pertaining to the control of liquor and bingo within the State. In addition to other duties assigned to the Commissioner, it is specifically provided that he shall direct that appropriate legal action be taken to enforce the revenue laws of Georgia; shall request the Attorney General to command the services of county attorney or solicitor general or to supply legal assistance from the Department of Law; shall supervise all administration throughout the State, subject, however, to the sovereign rights of the coun-

ties to regulate their own affairs; shall make thorough study of taxation in Georgia and elsewhere with a view to improvement of administration and legislation affecting the people of Georgia; shall make an annual report to the Governor and a biennial report to each regular session of the General Assembly; shall publish such regulations, statistics and other reports as he may deem wise within the limitations of his appropriation; shall assist local tax officials in every feasible manner when so requested by such official; and shall, as responsible revenue official of the State, advise the Governor on all matters relating to revenue.

The Revenue Commissioner is appointed by the Governor with the consent of the Senate, for a term of four years. The Act of February 21, 1951 provided that the Commissioner might appoint a Deputy Revenue Commissioner to whom he may delegate such duties and powers as he sees fit.

The Revenue Commissioner is ex-officio a member of the State Depository Board and is chairman and administrative officer of the State Tax Settlement and Compromise Board and of the State Board of Equalization. He also serves as an ex-officio member of the Board of Directors of the Metropolitan Rapid Transit Authority.

## STATE BOARD OF EQUALIZATION

The purpose of the Board is to settle and compromise any tax assessment where the collection of the tax is questionable and the settlement or compromise is in the best interest of the State; to approve property tax assessments for taxpayers who return property to the State Revenue Commissioner, and to hear all appeals by those taxpayers from said assessments. Members include: Attorney General; State Revenue Commissioner; Chairman, House of Representatives Ways and Means Committee; Chairman, Senate Finance Committee; State Auditor.

## STATE SCHOLARSHIP COMMISSION

The State Scholarship Commission was created by an Act approved March 12, 1965 (Ga. Laws 1965, p. 210) and was designated a state department of government by the Reorganization Act of 1972.

The Commission and its two companion agencies, the Georgia Higher Education Assistance Corporation (created by an Act approved March 12, 1965, Ga. Laws 1965, p. 217) and Georgia Higher Education Assistance Authority (Ga. Laws 1969, p. 683) administer programs of student financial assistance for Georgia residents who are pursuing education beyond the high school level. The Commission coordinates the administration of six student aid programs:

1. Georgia Incentive Scholarships for residents of the state who demonstrate substantial financial need. Since 1977, all undergraduate classification students at colleges and vocational schools in Georgia are eligible to apply.
2. Direct loans to Georgia residents. Recipients of direct loans through GHEAA may repay the state in service if they complete an educational program in an occupational area designated by the Commission as critically short of manpower. Other recipients repay in cash at seven percent interest.
3. Tuition Equalization Grants for Georgia residents attending Georgia private colleges and universities. Residents of the state enrolled as full-time students at approved and accredited private colleges and universities in Georgia may be eligible to receive annual grants which require no repayment to the state.
4. Law Enforcement Personnel Dependents Scholarships.

Dependents of killed or permanently disabled policemen, firemen, prison personnel and other law enforcement personnel, may be eligible to receive non-repayable student aid through the Commission.

5. Guaranteed Student Loans from commercial lenders. The Georgia Higher Education Assistance Corporation guarantees loans made to Georgia students by banks, savings and loan associations and credit unions participating in the loan program.

6. North Georgia College ROTC Grants. Students enrolled at N. Ga. College in the Army Reserve Officers Training Corps may be eligible to receive non-repayable student aid from the Ga. Higher Education Assistance Authority.

Efficient administration of the programs requires activity at several stages of the educational financial aid procedure. The Commission maintains statewide dissemination of information utilizing various media. The recruitment of individuals into critical career areas is emphasized. One functional division of the Commission facilitates the process of applying for aid through the department. Another division is charged with the control and disbursement of funds. The collection of payments on direct or defaulted loans is increasingly important; and, providing a base of support is the use of electronic data processing technology.

The Commission consists of sixteen members, one from each congressional district appointed by the Governor, two from the state-at-large appointed by the Governor, and four statutory members; the state budget officer, the superintendent of schools, the chairman of the Board of Regents and the chancellor of the University System of Georgia. Appointed members serve six-year terms. Members of the Commission also serve as directors of the boards of the Higher Education Assistance Authority and Higher Education Assistance Corporation.

The Executive Director serves at the pleasure of the Members of the Commission and is the administrator and executive officer of the entire department. The Executive Director is also Treasurer of the Commission and its companion agencies.

The DOT has jurisdiction and control over the construction and maintenance of all roads and bridges on the State Highway System. General funds are granted directly to cities through the DOT budget.

#### DEPARTMENT OF VETERANS SERVICE

The Department of Veterans Service was created by the Act of March 8, 1945 (Ga. L. 1945, p. 319) and it was made a constitutional body by the 1945 Constitution (Art. V, Sec. 6). Ga. L. 1978, p. 2219 amends Ga. L. 1945, p. 319 so as to authorize the Director of Veterans Service to use the title of Commissioner. It is the duty of the Department to furnish information to the veterans of all wars, their dependents or beneficiaries, as to their rights and benefits under Federal and State laws, to assist them in the preparation and prosecution of claims for the same, and generally to do all things necessary for the interest and protection of Georgia veterans. The services rendered relate not only to death and disability claims, but also to educational training facilities, health, medical and rehabilitation services, housing services, employment services and other benefits. The Department serves as the State Approving Agency for the G.I. Educational Program (Chaps. 78-4 and 78-4A of the 1933 Code). The functions, duties, powers and authority imposed by law upon the State Division of Confederate Pensions and Records transferred to the Department of Veterans Service (Ga. L. 1960, p. 882). The functions, duties, powers and authority imposed by law upon the Veterans' Home Commission transferred to the Veterans Service Board to provide that the Georgia State War Home facilities shall be under the control and administration of the Veterans Service Board (Ga. L. 1960, p. 1150).

Under the Reorganization Act of 1972, the Department of Veterans Service retained the same responsibilities to insure that veterans receive the benefits and services to which they are entitled. In addition, functions of the Department of Family and Children Services pertaining to the nursing home care of widows of Confederate veterans were transferred to Veterans Service.

The Board of Veterans Service consists of seven non-salaried members, all of whom must be veterans, appointed by the Governor and confirmed by the Senate. The Board elects its chairman and secretary from its membership. It is the duty of the Board to promulgate all rules and regulations necessary to accomplish its objectives. It elects the Commissioner for a four-year term.

The Commissioner is the executive officer of the Department and is charged with the duty of administering and enforcing all rules and regulations made by the Board. He is empowered to employ all necessary personnel and to maintain branch offices throughout the State for the convenience of veterans.

### WORKERS' COMPENSATION MEDICAL BOARD

The Act of January 31, 1946 (Ga. L. 1946, p. 103) created a Medical Board to which the Board of Workers' Compensation must refer all controverted medical issues in claims involving occupational disease and disabilities (Secs. 114-822 and 114-823 of the 1933 Code). The findings of this Medical Board after hearings duly had are conclusive upon the Board of Workers' Compensation, but are subject to review and appeal in the same manner as are other questions of fact. The Medical Board is not subordinate to the Board of Workers' Compensation but is independent thereof, even though the latter Board pays the fees and expenses of its members and even though it functions only for the guidance and assistance of the latter Board in a specified class of claims.

The Medical Board consists of five qualified physicians appointed by the Governor upon nomination by the Medical Association of Georgia, or if the Association fails to nominate, then upon the nomination of the Board of Workers' Compensation. The terms of office are for two years each, staggered so that two vacancies occur in one year and three in the following year.

#### Senate

1979-1980

#### House of Representatives

1979-1980

### THE GENERAL ASSEMBLY

The legislative power of the State is vested in the General Assembly, which consists of the Senate and the House of Representatives. The General Assembly convenes in regular session the second Monday in January annually, and it remains in session not more than forty days (Ga. Const., Art. III, Sec. V, Par. III) which need not be consecutive, so that it can adjourn to a fixed date and reconvene once. It may also be called into extra session by the Governor at any time upon the certificates of three-fifths of all the members thereof. With two exceptions, all bills may originate in either the Senate or the House of Representatives, but all bills must be passed by both branches and signed by the Governor before becoming law. The exceptions are bills for raising revenue and bills for appropriating money, which can originate only in the House. In the event of the Governor's veto of any bill during a session, it can be repassed by a two-thirds vote of both branches and becomes law.

### THE SENATE

The Senate consists of fifty-six Senators elected from as many Senatorial Districts. Presiding officer is the Lieutenant Governor who is designated as President of the Senate. The terms of office of the Senators are for two years and they are elected by the voters biennially in November of the even-numbered years. The minimum requirements for the office of Senator are age of twenty-five years, citizenship in the State for four years and residence in the Senatorial District for one year. #### JUDICIARY

##### Section I

Paragraph I. *Courts Enumerated.* The judicial powers of this State shall be vested in a Supreme Court, a Court of Appeals, Superior Courts, Probate Courts, Justices of the Peace, Notaries Public who are ex officio Justices of the Peace, and such other Courts as have been or may be established by law.

[Editorial note: This paragraph was altered by an amendment ratified November 5, 1974. "Probate Courts" was inserted in lieu of "Courts of Ordinary."]

Paragraph II. *Unified Judicial System.* For the purposes of administration, all of the courts of the State shall be a part of one unified judicial system. The administration of the unified judicial system shall be as provided by law. As used herein, administration does not include abolition or creation of courts, selection of judges, or jurisdictional provisions other than as otherwise authorized in this Constitution. The administration provided herein shall only be performed by the unified judicial system itself and shall not be administered to or controlled by any other department of Government.

[Editorial note: Paragraph II was added by an amendment ratified November 5, 1974.]

#### THE SUPREME COURT

The Supreme Court was created by an amendment to the 1798 Constitution, which became effective under the Act of December 22, 1835, but no enabling legislation was passed until the Act of December 10, 1845 (Ga. L. 1845, p. 18). It was organized in 1846 some seventy years after Georgia had become a State and then consisted of three Justices who rode the circuits. The present organization of the Supreme Court is defined in the Constitution of 1976 (Art. VI, Sec. II, Pars. 1 thru 7) and in the 1933 Code (Chaps. 24-38 thru 24-46).

The Supreme Court exercises appellate jurisdiction only in cases arising in the Superior Court or certain other

courts, which involve any of the following eight classifications of litigation, namely; cases that depend upon a construction of the constitutions of Georgia or the United States, or of treaties; cases in which the constitutionality of any law of Georgia or the United States is in question; cases respecting title to land; all equity cases; all cases which involve the validity or construction of wills; all cases of conviction of a capital felony; all habeas corpus cases; all cases involving extraordinary remedies; all divorce and alimony cases. It also has jurisdiction over cases certified to it by the Court of Appeals or carried from that Court by writ of certiorari.

There are *seven* Justices on the bench of the Supreme Court and, from time to time, they elect their Chief Justice and Presiding Justice. The qualifications for the office are three years residence, age of thirty or over and seven years experience in the practice of law. The terms of office are for six years each, staggered so that two vacancies occur in one year, two in the second following year and three in the fourth following year. The Justices are elected at the same general elections at which members of the General Assembly are elected. The Governor fills any vacancy by appointment until the next general election when a successor to complete the unexpired term is elected.

The Supreme Court makes and publishes its rules covering every phase of practice in and before the Court (Chap. 24-45 of the 1933 Code). It has authority to appoint its Clerks, Sheriff, Reporter, Law Assistants and other necessary personnel.

See 1976 Constitution Article VI, Sec. II, Par. 1 thru Par. 7, pages 38-39.

## COURT OF APPEALS

The Court of Appeals was created by an amendment to the Constitution of 1877, ratified on November 6, 1906. The first term of the Court was held on the first Monday in January 1907, and the Court originally consisted of only three judges. The Court now consists of nine judges. The present organization of the Court is defined in the Constitution of 1976 (Art. VI, Sec. II, Par. 8) and in the Code of 1933 (Chaps. 24-35 through 24-36A). See pages 232-267.

The Court of Appeals exercises appellate jurisdiction for the correction of errors of law in those cases arising in the Superior, State and other trial courts over which the Supreme Court does not have original appellate jurisdiction.

The Court sits in three Divisions of three Judges each, with the members assigned by the Chief Judge. The Chief Judge presides over the First Division and appoints the Presiding Judges of the Second and Third Divisions. The Chief Judge is elected by the Court and serves in that capacity at the pleasure of the whole Court. The Court of Appeals is not an intermediate appellate court. Its decisions are not reviewable by the Supreme Court as a matter of right but only on the grant of a writ of certiorari. Statistics show that considerably more than 95% of the Court of Appeals decisions are final. Its decisions are binding on all lower courts.

By the Act of March 8, 1945, (Ga. L. 1945, p. 232), it was provided that Sec. 24-3501 of the 1933 Code be amended by adding the provision that from and after the first day of the April Term 1945 of the Court of Appeals, the three Divisions of the Court, sitting as one Court, shall pass on and determine each case in which there is a dissent in the Division to which the case was originally assigned, unless upon consideration of the case by the three Divisions as one Court there is an equal division between the Judges passing upon the case; in which event, the case shall be decided by the Division to which it was originally assigned. It was also provided that, in some circumstances, the three Divisions might sit as one Court even when there is no dissent in the Division to which the case was originally assigned.

To qualify to serve as a Judge of the Court of Appeals, a person shall have been a citizen of the State for three years, obtained the age of thirty years and have had seven years experience in the practice of law. The terms of office are for six years each, staggered so that vacancies occur at two year intervals. The Judges are elected at the same general elections at which members of the General Assembly are elected. The Governor fills any vacancy by appointment until the next general election at which time a successor to complete the unexpired term is elected.

The Court of Appeals makes and publishes its rules covering every phase of practice in and before the Court (Chap. 24-36 of the 1933 Code). It has authority to appoint its Clerk, Deputy Clerk, Sheriff, Reporter and Assistant, Law Assistants and other necessary personnel.

Major publishers of law books and periodicals report that each Judge of the Court of Appeals personally writes and publishes more opinions than do the individual Judges of any other appellate court in the nation. A study dated July, 1977 showed that the Court of Appeals Judges collectively wrote and published their last 3000 cases in an average of 41.06 days from the date of oral argument. All cases are published in full in the *Georgia Appeals Reports* and in the *Southeastern Reporter*, and all are annotated in the leading legal publications. The *Georgia Appeals Reports* through June, 1978 numbered 145 volumes and is increasing by some four volumes annually.

## SUPERIOR COURTS

### ROSTER OF JUDGES BY CIRCUITS

### ROSTER OF DISTRICT ATTORNEYS BY CIRCUITS

CITY, CIVIL, COUNTY, CRIMINAL,  
MAGISTRATES, MUNICIPAL  
SMALL CLAIMS AND STATE COURTS

### THE SUPERIOR COURTS

For seventy years prior to the organization of the Supreme Court the Superior Courts of the various Counties were the highest courts of record in the State. At present there are one hundred fifty-nine Superior Courts, grouped into forty-two Circuits. The Superior Courts, which are courts of both law and equity, have exclusive jurisdiction in cases of divorce, in cases respecting titles to land, in equity cases and in criminal cases where the sentence might be penitentiary confinement or death; and they have concurrent jurisdiction in all other classes of cases with the City Courts, Civil Courts and County Courts. Cases from Courts of Ordinary and Justices' Courts can be carried to the Superior Courts for appeal.

See page 37; 39-40, 1945 Constitution, Article 6, Sec. III; Sec. VII.

The Judges and Solicitors General of the Superior Courts are elected by all of the voters of the State at the same general elections at which members of the General Assembly are elected. The term of office of each is four years (except Atlanta Judicial Circuit terms of 8 years. Ga. Laws 1956, p. 636), beginning on the first day of January next following the election. Vacancies are filled by appointment by the Governor until a successor for the unexpired term is elected at the next general election. The minimum qualifications for the office of Judge of the Superior Court are age of thirty years, three years residence in the Circuit and seven years experience in the practice of law; for the office of Solicitor General they are age of twenty-five years and three years experience in the practice. Upon reaching certain specified ages coupled with specified years of service, a Judge or Solicitor General can, upon notice given to the Governor, retire and be appointed, respectively, a

Judge of the Superior Court Emeritus for life, or a Solicitor Emeritus for life.

Ga. Laws 1968, p. 1567 Office of Solicitor General designated as District Attorney. Ga. L. 1976, p. 586 (Sec. 38-41) changes title of Judge Emeritus to Senior Judge (eff. Jan. 1, 1977). Ga. L. 1976, p. 782 entitled Judicial Administrative Act provides for 10 Judicial Administrative Districts under the jurisdiction of the Superior Court Judges presiding within the 10 U.S. Congressional Districts of the State.

CITY, CIVIL, COUNTY, CRIMINAL,  
MAGISTRATES, MUNICIPAL,  
SMALL CLAIMS AND STATE COURTS  
(All Addresses at County Seat)

There exist in the State a large number of City Courts, Civil Courts and County Courts, from which appeals lie directly to the Court of Appeals. Each was created by a different local Act of the General Assembly, with the result that each differs from all others in one or more respects. The 1945 Constitution (Art. VI, Sec. IX) expressly relieves City Courts from that uniformity of proceedings, practice and process which is obligatory upon all other courts of the same grade or class. As a general rule, most of them follow closely the practice and procedure of the Superior Courts, and most of them have county-wide jurisdiction over matters which are not reserved exclusively to the Superior Courts.

The Judges and Solicitors of the majority of these Courts are elected in their own counties for four-year terms of office, the qualifications and salary being determined by the Act creating the particular Court.

SMALL CLAIMS COURTS

Each Small Claims Court is created by separate legislative enactment of what is known as a general law with local application. With rare exceptions, they have countywide jurisdiction with the superior court, and all other courts in that county, in all civil actions at law where the amount claimed or the value of the property involved does not exceed the principal sum of \$500.00, but some such courts have jurisdiction of amounts up to \$1000.00. Small Claims Courts have no criminal jurisdiction but a judge thereof is authorized to issue criminal warrants, act as a committing magistrate, and perform all other acts and functions of a justice of the peace. These courts have no specified terms for holding court but are always open for transaction of business and hearings and trials are set for particular times in each instance by and in the discretion of the judge, but within prescribed limitations. All appeals from decisions of the judge are made to the superior court. One chief advantage of these courts is the dispatch with which cases are handled to final conclusion.

The qualifications of the judges, their powers, and the manner of their appointment or election, vary and are prescribed by law for each individual court. In some such courts it is required that the judge shall be a lawyer with prescribed qualifications but in other courts this is not required. Pleadings are simple and non-technical and the rules of practice are fairly uniform in all such courts, but the specific Act creating the court, and amendments thereto, should be consulted in each instance.
